WALL & FLOOR

TOP DESIGN & COLLECTIONS

Luxury that saves time: *The WANNEX Design Concept.*

HOTEL BATHROOM REFURBISHMENT

Seamless aesthetics meet maximum resilience. Transform ageing tiled bathrooms into contemporary retreats – without demolition, dust or disruptive noise.

First-class appearance, *a texture you can feel.*

Your corridors and rooms speak the language of design. The bathroom should be no exception. WANNEX SPC panels combine visual precision with a tactile depth that feels remarkably close to natural stone or refined wood.

Because the system is fully bonded without grout joints, it creates a generous contemporary spatial effect while instantly elevating the perceived value of your hotel.

TACTILE SURFACE DEPTH

Remarkably close to natural stone or premium wood – a finish you can feel.

COMPLETELY SEAMLESS

Fully bonded panels create a generous contemporary room without dirt-catching grout joints.

BUILT FOR DEMANDING USE

SPC panels are water-resistant, dimensionally stable and made for demanding hotel use.

COLLECTION · MARBLE & NATURAL STONE LOOK

I „Urban Luxury“

Timeless elegance

Large-format white SPC panels with elegant grey Calacatta-style veining, paired with matt black fittings.

Perfect for first-class hotels seeking a luxurious, bright and welcoming atmosphere.

COLLECTION CHARACTER

CALACATTA VEINING

Elegant grey veining on a bright base – generous, calm and representative.

MATT BLACK ACCENTS

Matt black fittings and details create a precise contemporary contrast.

BRIGHT SPATIAL EFFECT

Light-reflecting surfaces make even compact bathrooms feel generous.

COLLECTION · CONCRETE & INDUSTRIAL LOOK

II „Pure Concrete“ *Contemporary minimalism*

Dark grey, matt concrete-look panels in a pure contemporary bathroom with indirect LED lighting. Ideal for design and boutique hotels in European cities.

COLLECTION · PREMIUM WOOD & SLATE LOOK

III „Warm Elements“ *Alpine comfort & spa ambience*

A combination of deep black slate-look flooring and warm water-resistant oak-look walls. Perfect for wellness resorts and sophisticated country hotels.

THE TRANSFORMATION

Before meets after: *See the difference.*

An ageing tiled bathroom becomes a seamless WANNEX retreat – without demolition and with an efficient refurbishment sequence.

APPLICATIONS

More than a hotel bathroom: *One concept for your whole property.*

The same seamless SPC panels that elevate your bathrooms can also refurbish commercial kitchens, guest rooms, staff apartments and public areas – one material, one signature, one partner.

APPLICATION · COMMERCIAL & KITCHEN

I The seamless system *Hygienic into every corner*

Grout joints are weak points for grease, moisture and germs. Our panels create continuous water-resistant surfaces for demanding hygiene requirements – installed directly over the existing finish.

APPLICATION · HOTEL ROOMS

II From floor to wall *Made for guest rooms*

As continuous flooring and as a feature wall behind the bed, the system creates a calm resilient finish that matches the bathroom – room by room and with less operational disruption.

III Rooms that matter *Made for your team*

Good people stay where they feel at home. The same panels used in hotel bathrooms transform ageing staff accommodation into modern apartments – wall and floor in one coherent finish.

IV Reception, corridors, breakfast *Your whole property benefits*

The same marble, concrete and wood looks run through lobby, restaurant and wellness areas – durable, quiet and fast to install. One coherent brand experience from reception to bathroom.

COMPLEMENTARY SOLUTION

WANNEX SystemGrip: *Safety you do not see.*

Wet floors are a major accident risk in hotel operations. WANNEX SystemGrip is an invisible anti-slip treatment that permanently improves grip on existing floors without changing their appearance.

TYPICAL APPLICATIONS

POOL & WELLNESS

Pool surrounds, showers and sauna areas – wherever water is always present.

BATHROOMS & ROOMS

Shower trays and bathroom floors gain safer grip without losing their design.

COMMERCIAL & KITCHEN

Kitchens, storage and staff areas with high traffic and moisture.

YOUR HOTEL PROJECT STARTS HERE

Five steps to your *express quote.*

1. Choose your areas: bathrooms, hotel rooms, commercial kitchens, staff apartments or public areas – multiple selection is possible.
2. Choose your design style: classic luxury, industrial look or a natural spa ambience.
3. Tell us the project scale – bathroom projects start from 10 units, while commercial areas are assessed by square metre.
4. Tell us your property location – we work across Europe.
5. Send your contact details – your tailored design concept will be prepared within 24 hours.
